CHASE NURSERY COMPANY

HUNTSVILLE

ALABAMA

Huntsville, Ala. February 20th, 1912

TO THE TRADE:

We mail these Bulletins to the Nursery Trade frequently during the Spring season. If you do not receive future issues drop us a line that we may see if your name is on our regular mailing list.

We call special attention to our assortment of Transplanting Stock—Small Fruit Trees, Ornamentals, Shrubs, Imported and American grown Stocks and Seedlings, Roses, etc. This Transplanting Stock is graded high, well rooted, clean and will earn good dividends for you. Our Seedlings, both Imported and Domestic, are handled under the personal supervision of our Mr. Robert C. Chase, satisfaction guaranteed. About five car loads imported stocks and seedlings now en route from France.

Nurserymen's Supplies are a specialty with us. We are headquarters for the celebrated French Pruning Shears, both sizes always in stock, also extra springs for same. We usually ship all supply orders on next train after receipt.

Orders are booked in rotation as received. We do not substitute unless instructed, and as many items will sell quickly, it would be well to name "second choice" where possible.

Terms and conditions of sale as per our regular trade list, copy on request.

Cash with order where purchaser's credit is unknown to us.

Boxing extra except as noted.

Freight prepaid to our distributing points—St. Louis, Rochester and Philadelphia—when shipments can be included in our regular car lots to these points.

LET YOUR ORDERS COME PROMPTLY. We shall begin packing Surplus Stock for St. Louis Storage within two weeks. Will issue list of Boxed Lots from St. Louis during March and April as usual.

Prompt personal attention to all orders.

Yours very truly,

CHASE NURSERY COMPANY

ROSES

A photograph of our Freiherr Von Marschall, Own Roots in three grades. Notice the root system.

Will be pleased to submit samples of any varieties or grades. We grade high, which means that when in DOUBT as to just where a plant belongs, it goes in the LOWER grade. The grades will run as follows.

No. 1.—Hybrid Perpetuals and Climbers carry 24 to 30 inches of wood. Teas, Hybrid Teas, etc. carry 12 to 24 inches of wood, depending on their nature and habit of growth. All plants, stocky, well rooted, with three or more branches.

No. 2.—Hybrid Perpetuals and Climbers carry 18 to 24 inches of wood. Teas, Hybrid Teas, etc. 10 to 18 inches. All plants stocky, well rooted with three or more branches.

No. 3.—An unusually good grade this season, as we have a lot of stocky, well established little plants just under the requirements of our No. 2 grade. These will do for mailing in many instances, fine for transplanting. Ask for a sample.

EVERGREENS

Evergreens described below have been at least twice transplanted; plants are grown wide apart in rows, giving each one room to develop, and are perfect specimens. We will use every precaution in handling evergreens to keep roots from exposure, but we recommend digging them with a ball and burlapping. For price handled in this manner add ten cents per plant to the grades three feet and up, five cents per plant to the two to three feet grade and smaller.

NURSERYMEN'S SUPPLIES

PROMPT SHIPMENT

Carried in stock at Chase. Express orders are shipped next train after receipt of order. High grade goods only. We buy in quantity, take advantage of all cash discount and sell on a short margin of profit.

KNIVES

Made especially for us by a manufacturer who is "fussy" about the quality of his output. Have used and handled these knives for twenty years.

C. A. G. GRAFTER. Cocoa handle; pocket edition. 25 cts. each, \$3 per doz. postpaid; \$2.75 per doz. by freight or express.

WOSTENHOLM'S IXL IVORY TIP. The best budding knife we know of, and strong enough for an all-purpose knife. 75 cts. each, \$8.25 per doz., postpaid; \$8 per doz., by freight or express.

CHASE'S SPECIAL IVORY TIP. A mighty good budding knife; next to Wostenholm, it is the best ivory-tipped knife we can find; in appearance almost like Wostenholm, 60 cts. each; \$6.50 per dozen, postpaid; \$6.00 per dozen by freight or express.

STATIONARY BUDDER. Note shape, size and "hang" of blade, (see cut in Trade List.) Made for budding, but not as convenient for the pocket as the others. 25 cts. each; \$2.50 per dozen postpaid; \$2.25 per dozen by freight or express.

C. A. G. Pruner

C. A. G. PRUNER. Stationary handle; full length 8 inches, length of blade 3 $\frac{3}{4}$ inches. Handle, hardwood; blade entered deep and fastened by shrinking a ferrule, making a strong knife. 30 cts. each; \$3.20 per dozen postpaid; \$2.85 per dozen by freight or express.

Flat Handle Pruner

CHASE'S FLAT HANDLE PRUNER. The strongest pruning knife made, handle composed of two halves hardwood riveted through the blade which extends full length—see cut. Full length 7 $\frac{1}{4}$ inches. If you can break the handle on this knife we will replace it without cost. The metal is high-class. Price 35 cts. each; \$3.50 per dozen postpaid; \$3.20 per dozen by freight or express.

PRUNING SHEARS

WATCH SPRING, FRENCH, 8 Inch. Per pair postpaid, \$1.35; per dozen pairs, freight or express (weight per doz. pairs 7 lbs) \$14.50.

WATCH SPRING, FRENCH, 9 Inch. Per pair postpaid, \$1.70; per dozen pairs, freight or express (weight per dozen pairs 11 lbs) \$17.00.

The Watch Spring French Shears stand at the head of the list for making cuttings of all kinds. For this work the 8 inch size is just right. For cutting back seedlings to the bud or any heavy work the 9 inch is recommended.

In making cuttings the shears used should make a quick, clean cut (which these shears do to perfection) and they should have a properly proportioned grip to enable the operator to do a full day's work without cramp. We have used this make for years and find that it fills the bill better than any other we've tried. Once in a while a spring will break. We now import extra springs and can supply either size at all times.

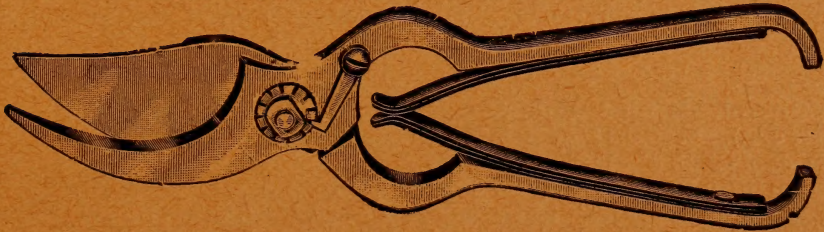

LADIES' GERMAN. 6-in. full nickel-plated. Volute spring. Not large enough for general use. High grade beautifully finished, large enough for use about rose bushes or shrubs in the garden, or for light work. Every retail salesman should learn how to prune and carry a pair of these in his pocket. 75c. per pair, postpaid; \$8 per doz. pairs, by express or frt. Weight per doz. pairs, 2¾ lbs.

Watch Spring, French
8 inch

Ladies' German

English Pattern

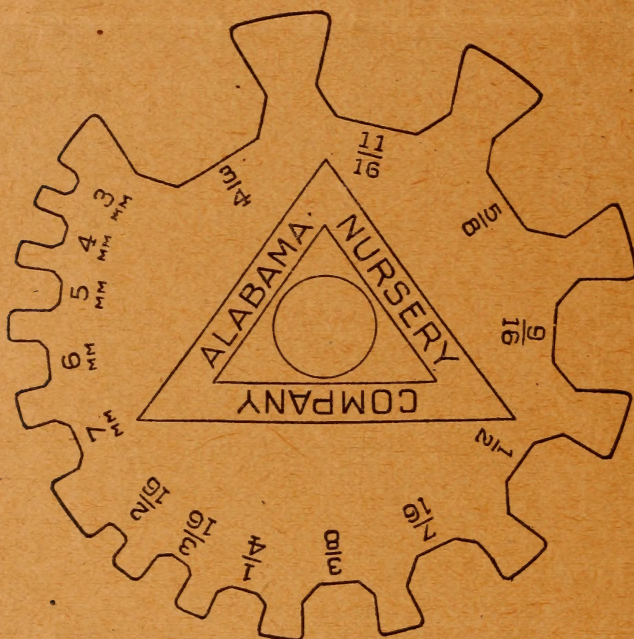

ENGLISH PATTERN, 8 In. One of the best made shears in the market; an extra blade with each. Heavy long brass springs that will last as long as the shears. \$1.90 per pair postpaid.

AMERICAN MAKE, 9 Inch. Good cheap shears, strong, well made. Weight, 17 ounces. Volute steel spring. 65 cts. per pair, postpaid.

Box Lining Paper—Helps keep out frost and heat, protects contents of box from drying winds. It is water proof, by this we mean that it will resist a good deal of moisture, but there is a limit. This paper is put up in rolls 30, 36 and 40 ins. wide, about 100 pounds in a roll. Ten lineal feet weigh one pound, or one roll will line 27 full size cases. We call it a good paper. You can buy paper for less money, but we think you will find this cheaper in the end. Per lb. $4\frac{1}{2}$ cts. Cannot break rolls.

Ames Nursery Spade—D handle, double strapped full length of handle, tapered nursery spade; size of blade $12\frac{3}{4} \times 7\frac{1}{2} \times 5\frac{1}{2}$; weight, 9 pounds. \$1.50 each, \$18.00 per dozen. SPADE HANDLES for above spade. These handles are bent to fit, and riveted. 40 cts, each, \$4.50 per dozen.

Improved Tree Gauge—Price, any quantity, 50 cents each. Made from "Sheradised" steel (a new process of treating steel); absolutely rust-proof; both sides marked alike; always right side up; guaranteed accurate to within one-hundredth of an inch; indestructible; easy to read. Any one having one of our nickel finished gauges that has "turned rusty", send it in and get a new one free of cost.

Chemicals for Fumigating—CYANIDE OF POTASH (Merck & Co.'s 98 per cent). In original sealed tin packages. 1 lb. cans, 40 cts.; 5 lb. cans, \$1.85. Cyanide of potash is excluded from the mails, but can be shipped by express or frt.

SULPHURIC ACID. (Specific gravity, 1.83). Large, glass-stopped bottles, securely packed in cases ready for shipment. 10 lb. bottle, \$1.20; 15 lb. bottle, \$1.50. Sulphuric acid cannot be shipped by express, but can be shipped by freight.

Raffia—We use the best Raffia we can buy, regardless of its cost, because, for nurserymen's use, the best is most economical. Per lb. by mail, postpaid, 30 cts., 10 to 50 lbs. per lb. f. o. b. Huntsville, $12\frac{1}{2}$ cts. 100 lbs. per lb. f. o. b. Huntsville, 11c. Ask for prices on bale lots (about 220 lbs.)

Cordage, Twines, Etc.—**FLAX SAIL, TWINE.** For sewing burlap; put up in skeins, per lb. 25 cents.

TWO-PLY SISAL CORD (breaking strength 170 pounds) For heavy express bales; on reels of about 45 pounds each, per lb. 9½ cts. We cannot sell less than a reel.

FOUR-PLY WOOL TWINE—For tying trees in bundles; put up in balls weighing about one pound each; packed about 120 pounds in a bale. In bale lots, per lb. 7¾ cts; in less than bale lots, per lb. 9 cents.

TARRED SISAL YARN or LATH CORD. In coils. Good for tying trees for storage or cellars. About 100 lbs. to a coil. Per lb. 10½ cts.

Grafting Thread—Grafting thread put up in balls, three-ply, firmly twisted and loosely wound, so that it can be soaked in boiling wax and used from the ball. Not waxed, lb. 35 cts.; same waxed ready for use, lb. 40 cts.

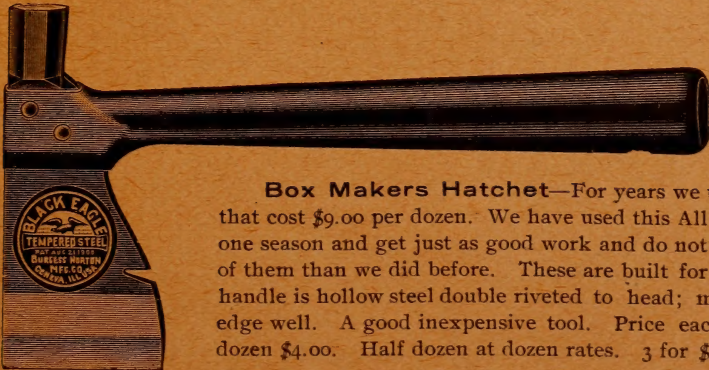

The illustration shows a ball of our grafting thread with a pencil run through the hole in the center. Many nurserymen prefer to suspend the ball of grafting thread from a wire to be unwound as it is used. We prefer to keep the grafting thread in warm water while it is being used.

Grafting Wax—For Bench Use, and How to Wax Your Thread. One part (by weight) tallow; two parts (by weight) pure beeswax; four parts (by weight) rosin. Put all in an open kettle and melt down. When boiling, stir thoroughly, throw in balls of thread loosely wound. When the balls sink to the bottom of kettle, the wax has gone through and they are ready to come out; when cool are ready for use. It will require from two to four minutes for balls to sink.

Burlap—Forty inches wide, 5¾ cts. per yard; full piece, about 200 yards, 5¼ c. per yard. "SCRAP" BURLAP—Second hand pieces 24 inches square and upward. Bales of 200 pounds, per lb. 3½ cts.; bale 100 pounds, per lb. 4 cts.

Needles for Sewing Burlap—Five-inch, extra quality, large eye, 40 cts. per dozen, 5 inch, common, 25 cts. per dozen.

Labels—**PLAIN IRON WIRED.** 3½ in. plain, 1000 to package. 75 cts. per 1000, by freight or express; in 5000 lots, 70 cts. per 1000; in 10,000 lots, 65 cts. per 1000. \$1.40 per 1000 postpaid. **COPPER WIRED**—Size same as above, add 15 cts. per 1000.

Box Makers Hatchet—For years we used a hatchet that cost \$9.00 per dozen. We have used this All Metal Hatchet one season and get just as good work and do not lose any more of them than we did before. These are built for hard service; handle is hollow steel double riveted to head; metal holds its edge well. A good inexpensive tool. Price each 40 cts. Per dozen \$4.00. Half dozen at dozen rates. 3 for \$1.00

Steel Box Straps—One inch wide, 9 inches long, thin, soft steel, strong enough to hold the heaviest box. You can drive an ordinary nail through it without punching. About 2800 pieces in 100 pounds. Less than 50 pounds, per lb. 5c; 50 lb. boxes, per box, \$2.25; 100 lb. boxes, per box, \$4.

Alabama Mule Skin Mittens—A leather mitten with separate sheath for forefinger, the other three fingers in one sheath. Made from mule skin, nearly as durable as buck-skin, at one-fourth the cost. Single pair, by mail, 40 cts. postpaid; per dozen pairs, by freight or express, \$3.50.
